

TAKE ONE DAY

In this time of change we are all facing new and different challenges: uncertainty and change at work; unfulfilling careers or relationships; financial pressures, or maybe just our general direction in life.

The one person best placed to look after your life, career and future is you

TAKE ONE DAY – is an innovative, one day course designed to give **you** control in this uncertain world by:

- helping you find the right skills, qualifications, knowledge and attitude to survive and succeed in this new, challenging and austere environment
- getting you to embrace change; feel positive about it and see the opportunities it brings
- understanding and feeling good about yourself
- developing resilience and perspective
- rethinking your attitudes to finance and possessions
- exploring ways to resolve personal issues and dilemmas
- mapping out your prospects, your job and your future

**'Everything you need is
already inside you'**

"Very concentrated day. It's up to me, not anyone else!" – A.V. – Public Sector delegate

Past participants on this course, based upon our **RIDFEAR**[®] self-coaching model, have benefited by coming to terms with imposed situations and seeing them as opportunities then making a success of them. Many have overcome redundancy situations and have found new employment opportunities. Several have realised they have wanted to start their own business and then began that journey. Others have overcome relationship, stress-related or low self esteem issues to improve their quality of life and work related performance.

The course gives you the space and time to look at yourself and your situation and determine what you want your life to be in the future. It is designed to help you find the questions and answers that are right for you!

No one should look after your life, career and future but you.
